GENERAL PROJECT NOTES

DIVISION 01 - GENERAL REQUIREMENTS	
013000 - ADMINISTRATIVE REQUIREMENTS	
1.	Contractor shall be responsible for verification and coordination of sub-contractors work to secure compliance with the drawings and specifications. Safety: In accordance with generally accepted construction practices. Contractor will be solely and completely responsible for conditions of job site, including safety of all persons and property during performance of this work. This requirement will apply continuously and not be limited to normal working hours.
3.	The Architect shall not be responsible for the means, methods, techniques, sequences or procedures of construction selected by the Contractor.
014000 - QUALITY REQUIREMENTS	
1.	The Contractor shall obtain and pay for all required permits and inspections unless indicated otherwise.
2.	All work shall conform to the current building code, and all applicable laws, rules, regulations and ordinances or governing authorities. In case of conflict the most restrictive shall not limit their applicability.
3.	The term "provide" when used shall mean "furnish and install" unless noted otherwise.
4.	Provide blocking in walls, ceilings, etc. wherever items will be attached to these surfaces (i.e. toilet accessories, wall mounted door stops, fixtures, casework, handrails, A/V equipment, etc.).
5.	Provide firestopping at all locations required by governing codes and authorities. Contact building inspector for inspection of all firestopping prior to installation of any material which may conceal the firestopping.
6.	All steel exposed to the exterior shall be galvanized and painted, unless noted to be stainless steel or galvanized (unpainted).
015000 - TEMPORARY FACILITIES AND CONTROLS	
1.	Contractor is responsible for providing any temporary water, electrical service, heating and trash removal as needed to complete the work. Contractor shall collect and remove all rubbish, surplus material, tools and scaffolding pertaining to his work on a regular basis throughout the construction in order to maintain an orderly working environment.
3.	Temporarily brace structural components as required to maintain stability until complete and functioning as a designed unit.
4.	Fumes and dust shall be controlled so as to prevent any harmful or undesirable effects in the surrounding area.

DIVISION 02 - EXISTING CONDITIONS	
022000 - ASSESSMENT	
1.	Commencement of work by the Contractor or Trade shall signify the acceptance of the site conditions.
2.	Area and dimensions: It shall be the responsibility of the Contractor(s) or Trade(s) to verify all area takeoffs and dimensions by making their own field measurements before starting work or ordering materials.
3.	The Contractor shall verify at the job site, all dimensions and conditions shown on the drawings and within the Contract Documents and shall notify the Architect of any discrepancies, omissions and/or conflicts before proceeding with the project. All discrepancies shall be resolved before starting work or ordering materials.
4.	The Contractor shall not scale drawings, written dimensions shall govern. Large scale drawings shall govern over small scale drawings. Field verify existing conditions where no dimensions exist.
5.	All dimensions to existing construction are to the finished face. All dimensions to new construction are to face of concrete, face of masonry, face of stud or column centerline unless noted otherwise. Any dimension noted as "CLEAR" or "CLR" is from finished face to finished face.
6.	Contractor shall verify location of all existing utilities. Take precautions as necessary to protect them. Repair all utilities damaged during construction at no cost to the Owner.
7.	Contractor shall replace topsoil and re-seed lawn areas disturbed by construction.
8.	The removal and installation of mechanical, electrical, plumbing and architectural items may require the penetrations or removal of existing floors, ceilings, and walls. Patch and finish all existing surfaces that are disturbed during construction unless noted otherwise.
