US 27 (Alexandria Pike) – Phase 2 – Link Lane to Low Gap Road

The length of US 27 (Alexandria Pike) Phase 2 is approximately 1.99 miles (10,490 feet). The character of US 27 (Alexandria Pike) is more rural in nature on this south end with slightly lower traffic volumes (an average daily traffic of 32,395 vehicles per day was collected in 2024 at Low Gap Road), higher speeds (posted speed limit of 45 mph), paved and graded shoulders, roadside ditches, open land adjacent to the corridor, and less intersections / driveways. Within Phase 2, there are approximately 44 intersections and in 2021, 2022, and 2023, 160 crashes were reported.

Do you agree or disagree with the following statements (circle one per statement, please):

Safety of the US 27 (Alexandria Pike) corridor is of concern. Agree Disagree

To improve safety along US 27 (Alexandria Pike), the number of intersections / driveway / site access points should be reduced. Agree Disagree

To improve safety along US 27 (Alexandria Pike), the functionality of full movement intersections / driveway / site access points should be reduced. Agree Disagree

Comments:

Congestion along the US 27 (Alexandria Pike) corridor is of concern. Agree Disagree

To improve congestion along US 27 (Alexandria Pike), the number of intersections / driveway / site access points should be reduced. Agree Disagree

To improve congestion along US 27 (Alexandria Pike), the functionality of full movement intersections / driveway / site access points should be reduced. Agree Disagree
